

STILL ARRESTING RUSSIAN DEPUTIES

M. Vragoff is Charged With Complicity in Murder of Lieut. Petroff.

ENCOUNTER WITH COSSACKS.

Conditions in Poland Continue Grave—Some Distressing Scenes in Warsaw.

St. Petersburg, Aug. 16.—Dispatches received here today from Penza, at the junction of the Bura and Volga rivers, report the arrest of another member of the late parliament, M. Vragoff, under circumstances quite as compromising as those in the Onipko case, Vragoff being charged with complicity in the murder of Lieut. Petroff of the rural police and the wounding of a sergeant of the same force. After the return of Vragoff from St. Petersburg agrarian disorders broke out at the village of Kamenko, in which Petroff, who attempted to quell the disturbances, was killed. On the arrival of the governor and military, Deputy Vragoff and the other ringleaders were arrested and sent to Penza, and the village priest was confined in the monastery.

Aggravated disorders in another district of the province led to an encounter between the populace and Cossacks, in which one peasant was killed and several were wounded.

The effect of the continued agrarian disorders on the Russian grain yield is shown in the fact that the St. Petersburg bureau reports the purchase of 20,000 bushels of grain in Germany for Russian delivery, the first time in the history of the bourse that such a thing has occurred. It is explained that owing to the increased price of grain it is cheaper at the coast ports to buy abroad than in the interior.

Conditions are aggravated by transportation conditions, the nature of which is shown by an order of the minister of railways permitting for the first time the loading of grain trains at night.

Today's dispatches from Poland are hardly less grave than those of last night. At Lodz, after the police station had been blown up and burned, Cossacks and other troops fired volleys into the crowds and more or less street fighting followed. The casualties are not known.

A London correspondent, who telegraphed a description of the scenes witnessed by him after the disturbances at Warsaw, said:

"The hospitals, surgeons, fatigued by their labors were unable to attend to cases, and wounds diagnosed as fatal were left to take their course."

"The scenes in the morgues were terrible. In one I counted 20 civilian bodies, all dirty and dressed as they fell."

"The people have grown callous with too much death. I heard a young girl laugh heartily at the sight of a woman whose brain pan had been torn off by a bomb."

"In one hospital I saw a youth who when bayoneted yesterday (Wednesday) fainted death. The soldiers trod over him and their heavy boots crushed his fingers to a pulp, but he successfully stood the ordeal, he was carried to the morgue, when it was discovered he was alive. He is now progressing favorably."

"Last night resulted in an orgy of blood in the Jewish quarter. The number of persons clubbed or bayoneted exceeds 300."

MASS. GOVERNORSHIP.

Moran Willing to Have Bryan Decide As to His Claims.

Boston, Aug. 16.—Dist. Atty. John B. Moran issued a statement today in regard to his candidacy for the governorship of Massachusetts in which he expressed his willingness to have his claims for the Democratic nomination and those of Henry M. Whitney submitted to William J. Bryan, to the three strongest and three weakest Democratic cities in Massachusetts outside of Boston, or the three weakest Democratic wards in Boston. Mr. Whitney has declined to accept this proposition.

CHICAGO BANK FAILS.

Chicago, Aug. 16.—The Garfield Park bank, an institution on West Madison street, was placed in the hands of a receiver late this afternoon by Judge Heibea in the United States district court. Three creditors filed the petition and also asked that Ellis E. Drake, president of the bank, be declared insolvent.

The collapse of the Milwaukee Avenue State bank is said to have caused the closing of the smaller institution. No statement of assets or liabilities was presented in court.

BRYAN IN MADRID.

Madrid, Aug. 16.—On his arrival here today William J. Bryan was received by Vice Consul Modlin Sumner. Mr. Bryan left this evening for Cordova.

NAPHTHA LAUNCH EXPLODES.

New York, Aug. 16.—The 60-foot naphtha launch Hercules, belonging to Rev. J. C. White of Pittsburg, was blown up by the ignition of gas in the hold, off Green Point, tonight. There had been a leak in the boat for some days, and the fuel was all drawn from the tank. Engineer Schaeffer went into the hold with a lantern to look for the trouble. Schaeffer was severely burned. Rev. Mr. White is at the Booth house.

TRAMWAY MESSENGERS SKIP.

Denver, Aug. 16.—Subpoenas were issued today for Henry Brady and James Williams, two of the tramway messengers, who are said to have disbursed funds for the corporations during the recent franchise campaign. It is understood the men have left town. Judge Lindsey continued his investigation of the ballot boxes today. The result of the day's work

Thousands of Women ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that It Really Does Make Sick Women Well.

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with all other medicines and treatments for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and restorative ever discovered to act directly upon the female system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians

dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), weakness, displacements, inflammation, ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Any woman who writes to Mrs. Pinkham, Lynn, Mass., for advice, it's free and always helpful.

POPE'S ENCYCLICAL.

France Not Disposed to Negotiate for Modification of the Law.

Paris, Aug. 16.—M. Briand, minister of public worship, today discussed with several of his political supporters the pope's encyclical letter with reference to the law for the separation of the church and state. M. Briand denied that the government is disposed to negotiate with the pope for a modification of the law, which, he declared, must be applied as it stands. M. Briand added that the government believes that the law will be accepted in the end and he sincerely desires that it should be so on account of the internecine strife which refusal of the clergy to accept the law would entail. He declared also that he has foreseen the possibility of resistance and has taken all necessary steps.

LONGWORTH ELECTED.

Secretary of Mutual International Policyholders' Association.

New York, Aug. 16.—Representative Nicholas Longworth of Cincinnati today was elected secretary of the International Policyholders' association of the New York and the Mutual Life Insurance companies, to succeed Seymour Eaton, who recently resigned.

This action was taken at a meeting of the executive committee at which Mr. Longworth was present.

A clerk will be employed to perform the current duties, as Mr. Longworth is leaving for his home in Ohio for a few days to look after his political interests. The committee also discussed candidates for trustees for both the New York and Mutual companies, and held a conference with the sub-committee of the Mutual Life Policyholders' association, at which further progress was made in the selection of a joint ticket for Mutual trustees.

DIVORCE STATISTICS.

Government Sends Out Employees on Still Hunt for Them.

Washington, Aug. 16.—In an interview today regarding the interest in the dispatch of employees to 29 of the largest cities to collect divorce statistics, William S. Rosser, acting director of the census bureau, pointed out that the 160 clerks already sent out are trusted employees, sworn to secrecy, and that "the public will never be any the wiser as to individual cases which we have finished."

"Our records," he said, "will not even contain the names of the divorced persons. It is block statistics that the government is after. We are simply sending a corps of men and women clerks, and they are being located in the courthouses of 29 of the largest cities, where, under the direction of a man of the bureau, they will go through the divorce records for 20 years and take out certain facts, which will never have any personal significance."

DRAGO DOCTRINE.

Pan American Committee All in Discord About It.

Rio De Janeiro, Aug. 16.—General discord prevails among the members of the committee of the Pan-American congress having the Drago doctrine resolution under consideration. Central America, Uruguay and Colombia desire the elimination of the whole subject from the program, and Brazil, the United States and Mexico desire its recommendation to The Hague tribunal without comment. Argentina is vacillating.

The commerce committee's partial report was adopted today. It recommends that an expert work out a plan for unifying the customs and shipping laws of Pan-America.

THREE CONVICTS ESCAPE.

Feigned Illness, Remained in Stockade, Cut Guard's Throat, Got Away.

Charleston, S. C., Aug. 16.—Feigning illness, three negro convicts, Alonzo Goodwin, Hammond Wilson and George Kenny, serving long terms in the chain gang near Ashley Juncos, remained in the stockade today. They asked for water and then overpowered H. C. Steilo, the white guard, and cut his throat with a butcher knife. Two trustees at the stockade were locked in by the men, who donned civilian clothing and escaped into the nearby swamps.

A sheriff's posse is searching the woods.

KANSAS CITY GAS.

Mayor's Contentment Has Right to Acquire Franchise, Upheld.

Kansas City, Mo., Aug. 16.—Mayor Beardsley's contention that the city has the right under the Kansas City, Mo., Gas company's franchise to acquire its plant any time after Jan. 10, 1907, is upheld by an opinion rendered tonight by the city council.

The council has also decided that the city cannot take possession of the plant before August, 1907, and that the value of the plant is much in excess of the mortgage indebtedness.

The mayor believes that by assuming the mortgage indebtedness the city can take possession of the gas plant without spending a dollar. The attorneys for the gas company contend that the city cannot take possession of the plant before August, 1907, and that the value of the plant is much in excess of the mortgage indebtedness.

COMMISSION TO CONSIDER NAVY PERSONNEL LAWS.

Washington, Aug. 16.—Before leaving Washington yesterday for his vacation, Secy. Bonaparte signed the order creating a board to consider existing laws affecting the commissioned personnel of the navy. On it are Truman H. Newberry, assistant secretary of the navy, president, Rear-Admiral Charles H. Stockton, Capt. Charles E. Vreeland, Commander Harry H. Hensley, Commander Albert Gleaves, Lieut.-Commander William S. Sims and Lieut.-Commander Emil Theiss.

The board will consider existing laws affecting the commissioned personnel of the navy and recommend such changes as will, in the judgment of the board, tend to promote efficiency and economy and be also consonant with an equitable regard for the interests of those affected. The report will form the basis of the recommendations as to changes in the annual report of the secretary to Congress. The board is directed to submit its recommendations in the following separate reports:

First—A report of recommendations affecting the officers of the line of the navy only.

Second—A report of recommendations affecting officers of any one or more of the staff corps of the navy or of the United States marine corps, whether the same do or do not affect officers of the line.

Third—A report of recommendations affecting the organization, powers or duties, as now fixed by law, of any bureau or office of the department, or of any command of the United States marine corps, whatever might be the other or further effects of said recommendations if adopted.

The second and third reports are to be submitted not later than Nov. 9, 1906; the first not later than Nov. 19, 1906.

MURDERED HIS WIFE.

E. H. Sanderson Cut Her Throat and Then Committed Suicide.

Los Angeles, Aug. 16.—Edward H. Sanderson, secretary of the California Truck company, and a very wealthy man, late this afternoon murdered his wife and committed suicide, in their palatial home, 1336 West Lake avenue. The double crime was committed with a razor, and was one of the boldest in the annals of this section of the state. The tragedy was discovered tonight by a house maid employed by the Sandersons.

Sanderson, according to a statement by his son, Rowe, had acted strangely for several days past, and his family became aware that he was mentally unbalanced. But none of his actions were of a sort to excite fear of violence at his hands. There were no eye-witnesses to the tragedy.

FATAL RAILWAY ACCIDENTS.

Lincoln, Neb., Aug. 16.—John Waters of Doniphan, Neb., a delegate to the Populist state convention, while suffering from heat, left his hotel early this morning and wandered to the Burlington railroad yards and was struck by a switch engine. He died in the hospital tonight as a result of injuries. In the same yards tonight a stranger, supposedly overcome by heat, fell on the track and was run over and killed. The maximum temperature in Lincoln today was 95.

LAND SWINDLER CONFESSES.

Portland, Or., Aug. 16.—The dreary monotony of a three-day trial was broken today in the trial of Manager Zachary of the Butte Creek Land & Livestock company, charged with perjury in connection with the final report of the Charles A. Watson homestead, when Watson himself, now under conviction of having swindled the government out of a homestead, took the stand and made a full confession.

TEXAS DEMOCRATS COMPLETE THEIR TICKET.

Dallas, Tex., Aug. 16.—Thomas M. Campbell, a native of Rock, Tex., the birthplace of the late Gov. Hogg, was this afternoon nominated for governor by the Democratic state convention. He will be the second native governor of Texas. Mr. Campbell is a lawyer, but for several years was general manager of the International & Great Northern railway.

The first ballot, which started last night, was not completed until 11 o'clock today. Judge Brooks, receiving the smallest number of votes, was dropped. Mr. Campbell O. B. Colquitt and Judge C. K. Bell being the remaining candidates. On the second ballot Campbell was nominated.

When the rollcall had been on for two and a half hours and was about one-fourth completed, Mr. Colquitt made a speech, withdrew his name and declaring that Col Campbell should be nominated.

A little later Judge Bell withdrew and asked that the nomination of Col Campbell be made unanimous. The convention did so, whereupon the final ballot was taken. Campbell appeared, escorted by Mr. Colquitt, who presented him, merely saying: "The Campbell has come."

At tonight's session the state ticket was completed, as follows: Governor—T. M. Campbell; Lieutenant-Governor—B. Davidson; Attorney-General—S. V. Davidson; Comptroller—J. W. Stevens; Treasurer—Samuel Sparks; Superintendent of Public Instruction—R. B. Cousins.

TROUBLE AT BROWNSVILLE.

Brownsville, Tex., Aug. 16.—No report being received by the investigating committee to request for protection and relief from the strain under which this city had been since the outrage committed by soldiers Monday night, the committee has sent an urgent message to President Roosevelt, United States Senator Culberson and Bailey and Gov. Lanham, detailing the outrages, saying that "two days' diligent inquiry it has been found that no blame attaches to the citizens, and asking that the negroes be replaced by white troops. The message charged that three negroes, acting as soldiers, had been seen in the town, and it is believed the five commissioned officers cannot be held responsible. The governor and senators are implored to do all they can to secure the removal of the negro troops. It is said the government investigation will result in a court-martial for one or more officers.

JAPANESE INTERPRETERS.

State Department Will Select Six Students for Places.

Washington, Aug. 16.—Examinations will be held at the state department Oct. 1, to select six student interpreters to serve in the American consular service in Japan, and one interpreter for the service in China. The diplomatic and consular act passed by the last Congress provides for 16 student interpreters in the far east, and there are seven vacancies.

Appointments will be made after competitive examination. Applicants must be between 19 and 28 years of age, of strong constitution, good character and education. Letters of recommendation will be given consideration, but the appointments will be made on the basis of local affiliation. Applicants must write to the state department in their own handwriting, giving their age, full details concerning their education and names of their parents and the states of which they are citizens.

Examinations will be both oral and written and the purpose will be to determine the general education of applicants, their natural fitness for the service and their command of the English language. Results of the examination will be submitted to the president.

The salary is \$1,000 a year and these appointments are required by the government to remain in the service 10 years if the government so desires. Although interpreters are required chiefly for the consular service, some are also needed in the eastern consulates and legations. It is the purpose of the state department to advance interpreters as already a number have been given consular places.

Successful candidates will be sent to Peking and Tokio, where they will devote themselves to the study of the Chinese and Japanese languages for at least two years.
